

MULTICUT 400

LISSMAC

CONSTRUCTION TECHNOLOGY

POWERFUL AND COMPACT FLOOR SAW FOR
CHALLENGING BUILDING SITE CONDITIONS

- Compact floor saw with scissor technology
- Drive via hydrostat guarantees smooth and controlled operation of the machine
- Optimum power transfer with high performance V-belts
- Warp-resistant sheet frame construction
- The compact design and balanced chassis permit easy manoeuvring around the construction site
- The low centre of gravity ensures a precise saw cut
- Very good straight cut thanks to the adjustable rear axle
- Electro- hydraulic lowering and raising of the saw blade with a threaded spindle with cutting depth indicator prevents damage to the saw blade
- Height adjustable handles allow for ergonomic operation
- Saw hood front can be raised for intersections
- Rapid changeover from left to right-hand cutting
- Easy access for prevalent maintenances (air filter, battery, oil filter, fuel filter) due to the perfect drive unit position
- Parking brake and neutral (free-wheeling) comes as a standard feature

[1] Blade guard

[2] Spot-light

[3] Warning flasher

TECHNICAL DATA	MULTICUT 400 D	MULTICUT 400 P
cutting depth max.	315 mm / 415 mm	315 mm / 415 mm
cutting depth setting	electrohydraulic with depth gauge	electrohydraulic with depth gauge
saw blade Ø max.	800 mm / 1000 mm	800 mm / 1000 mm
arbor size	25.4 mm	25.4 mm
drive motor	Perkins Diesel 3-cyl.	Kohler petrol 2-cyl.
output power max.	18.4 kW / 25 hp	26.1 kW / 35 hp
emission level	stage 5	EU Stage 5 / EPA Phase 3
saw blade speed	1490 1/min.	1600 1/min.
left and right cut	yes	yes
dimensions (L/W/H)	1300 / 840 / 1690 mm	1300 / 850 / 1200 mm
weight	458 kg	416 kg

DIAMOND TOOLS RECOMMENDATION

Asphalt	ASP 401
Concrete	BSP 301

FLOOR SAWS	NR.
MULTICUT 400 D without diamond blade, without blade guard	1080082
MULTICUT 400 P without diamond blade, without blade guard	1080083
ACCESSORIES	
[1] MULTICUT 400 - blade guard 500 mm	1081253
